## SUMMARY

Computer Science undergraduate at Chandigarh University with hands-on experience building full-stack applications using Java, Spring Boot, React.js, and SQL/NoSQL databases. Strong foundation in Data Structures and Algorithms, with 850+ coding problems solved and experience developing REST APIs, payment workflows, and AI-powered application features. Seeking a Software Development Internship to build reliable, scalable applications.

## TECHNICAL SKILLS

**Languages:** Java,SQL,JavaScript, C++, Python
**Web Technologies:** React, HTML, Spring-boot, CSS, JavaScript (ES6+), MongoDB, SQL
**Core Concepts:** Data Structures & Algorithms, Object-Oriented Programming (OOP), OS, DBMS

## ACADEMIC PROJECTS

**FoodyHub | AI-Powered Online Food Delivery Application** **Aug 2026**

- Developed a full-stack food delivery application using Java 17, Spring Boot, React 19, and MongoDB, supporting menu browsing, cart management, checkout, and order tracking.
- Integrated Gemini 1.5 Flash AI assistant with backend tool calling and NLP fallbacks for personalized food recommendations, nutritional analysis, and budget-based meal planning.
- Implemented JWT authentication and role-based access control (RBAC) using Spring Security to secure customer and admin REST APIs.
- Integrated Razorpay payment gateway with payment signature verification and order status synchronization for secure checkout.
- Built an admin dashboard for catalog and order management, integrated AWS S3 for image storage, and developed responsive UI with React Router v7 and Bootstrap 5.

**PackSure | Full-Stack AI-Based Compliance System** **April 2026**

- Developed a full-stack product compliance platform using Java 17, Spring Boot 3, React 19, and PostgreSQL to automate packaged goods inspections against Legal Metrology regulations.
- Built a computer vision and OCR pipeline using Python, FastAPI, OpenCV, and PaddleOCR to extract packaging declarations, including MRP, net quantity, dates, and consumer care details.
- Engineered a rule-based compliance engine in Spring Boot to evaluate regulatory requirements, calculate compliance scores, and flag packaging violations.
- Developed a React-based inspection dashboard with OCR confidence metrics, bounding-box visualization, and human-in-the-loop review for correcting extracted data.
- Implemented Spring Security, JWT, and role-based access control (RBAC).

## EDUCATION

**Chandigarh University** **Expected 2028**
B.E. Computer Science | CGPA: 8.25 (5th Sem)

**Hoomgarh Chandabila High School** **2024**
XII (WBCHSE) | Score: 82.8%

**Hoomgarh Chandabila High School** **2022**
X (WBBSE) | Score: 94.14%

## ACHIEVEMENTS & CERTIFICATIONS

- Competitive Programming: Solved 850+ DSA problems across LeetCode, CodeChef, HackerRank and GeeksforGeeks (Contest Rating: 1618 | Leetcode).
- Technical Certifications: Machine Learning — NPTEL, Java Programming for Beginners & Software Engineering — IBM , Data Structures & Algorithms (Alpha) — Apna College, Career Skills in Software Development — LinkedIn Learning.
- Merit Scholarships: Recipient of National Scholarship Portal (NSP), Swami Vivekananda Merit-cum-Means (SVMCM), and NMMS merit awards.
